(Transcripts filed September 27, 1996)

October 16, 1996

The Board of Adjustment at its meeting held May 8, 1996 voted to render a final decision at the July 17, 1996 meeting and approved the application by five Ayes and two Nays.

An appeal in this matter was filed in the Office of the City Clerk on August 26, 1996, by Ms. Carmen Julia Ruiz.

The transcripts in connection with this matter were received September 27, 1996, and each Member of the Council was furnished with a copy of the transcripts and other parts of the record.

On October 3, 1996, the City Clerk notified the applicant, the owner, the applicant's attorney, the appellant and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting of October 16, 1996, at 7:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark, New Jersey.

President Bradley stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of Frank Spinner, Applicant and 319 Broadway Realty, Inc., Owner, to permit in a 4th Business Zone, a proposed 1-story Mechanical Car Wash which is not a permitted use; for premises 319-331 Broad Street. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal to commence.

A motion to defer action on the appeal was made by Council Member Carrino, seconded by Council Member Quintana and declared adopted by President Bradley by the following votes:

Yes: Council Members Carrino, Chaneyfield, Crump, Martinez, Quintana, Rice, President Bradley.

BOARD OF ADJUSTMENT APPEAL.

The Deputy City Clerk read **In the matter of application of Frank Spinner, Applicant and 319 Broadway Realty, Inc., Owner, to permit in a 4th Business Zone, a proposed 1-story Mechanical Car Wash which is not a permitted use; subject to site plan approval, for premises located at 319-331 Broad Street.**

(Copy of transcript submitted to each Member of the Council)

(Ms. Carmen Julia Ruiz, Appellant)

(Board of Adjustment hearings held May 8, 1996 and July 17, 1996)

(Transcripts filed September 27, 1996)

November 6, 1996

The Board of Adjustment at its meeting held May 8, 1996 voted to render a final decision at the July 17, 1996 meeting and approved the application by five Ayes and two Nays.

An appeal in this matter was filed in the Office of the City Clerk on August 26, 1996, by Ms. Carmen Julia Ruiz.

The transcripts in connection with this matter were received September 27, 1996, and each Member of the Council was furnished with a copy of the transcripts and other parts of the record.

The Municipal Council at its regular meeting October 16, 1996, deferred action on the application.

On October 17, 1996, the City Clerk notified the applicant, the owner, the applicant's attorney, the appellant and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting of November 6, 1996, at 1:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark, New Jersey.

President Bradley stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of Frank Spinner, Applicant and 319 Broadway Realty, Inc., Owner, to permit in a 4th Business Zone, a proposed 1-story Mechanical Car Wash which is not a permitted use; for premises 319-331 Broad Street. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal to commence.

MR. MICHAEL J. OLIVEIRA, 292 LAFAYETTE STREET, NEWARK, NEW JERSEY 07105, addressed the Members of the Municipal Council supporting his client's position as owner and applicant for the above-mentioned application.

MS. CARMEN RUIZ, 23 BROADWAY, NEWARK, NEW JERSEY 07104, addressed the Members of the Municipal Council opposing the granting of this variance.

Council Member Carrino read the following statements:

The above-referenced matter is before the Council based upon an objection by Carmen Ruiz, on behalf of La Casa de Don Pedro. La Casa de Don Pedro ("La Casa") is a youth community center located at 23 Broadway in Newark. The basis of the appeal stems from the increase of traffic that will flow from the proposed car wash, thereby creating imminent danger to the children that attend the services at the community center.

In accordance with N.J.S.A. 40:55D-17 "[a]ny interested party may appeal to the governing body of any final decision of a board of adjustment approving an application for development pursuant to subsection d. Section 57 of P.L. 1975, c. 291 (C. 40:55D-70), if so permitted by ordinance."

Furthermore, "interested party," as defined by N.J.S.A. 40:55D-4, means: "...any person whether residing within or without the municipality, whose right to use, acquire, or enjoy property is or may be affected by any action taken under this act, or whose rights to use, acquire, or enjoy property under this act, ...have been denied, violated or infringed by an action or a failure to act under this act."

November 6, 1996

The right to enjoy the property of La Casa may be affected by the increase of the heavy flow of traffic generated by the car wash. Additionally, this increase in traffic will also infringe upon La Casa's property by making it difficult for the children to cross the street safely. Moreover, there will be an added responsibility placed on the employees of La Casa to ensure that the children are supervised when entering and exiting the building. It may even be necessary to hire a "crossing guard" or the like, to ensure safe crossing of the street by the children.

Based upon the foregoing reasons, the car wash should not be allowed and the granting of the variance should be overturned.

A motion to reverse the decision of the Board of Adjustment was made by Council Member Carrino, seconded by Council Member Quintana and declared adopted by President Bradley by the following votes:

Yes: Council Member Branch, Carrino, Chaneyfield, Crump, Martinez, Quintana, Rice, Tucker, President Bradley.

The City Clerk read the following veto message from Mayor Sharpe James:

SHARPE JAMES
MAYOR
NEWARK, NEW JERSEY
.07102

August 8, 1996

Council President Donald Bradley
Newark Municipal Council
City Hall - Room 304
920 Broad Street
Newark, N.J. 07102

Dear Council President Bradley:

I must respectfully veto the decrease in the Sewer Rates Ordinance, whereas it would result in a tax increase for the citizens of Newark. Moreover, it would paralyze the City to address any emergencies and represents an act of poor management and legislative indifference.

As you are aware from my prior correspondence dated July 25, 1996 on the issue of the decrease in the sewer rates, I have some critical concerns that have remained unaddressed. Therefore, I will veto Ordinance 6PH, S & F-f. The following list summarizes my reasons for vetoing this Ordinance:

1. Tax exempt users will not pay this increase in taxes, but will benefit from the decrease in sewer rates. The full impact of any tax increase will fall completely on taxable properties. Therefore, an entity, such as Port Authority, will pay no additional taxes, but will receive a reduction in their sewer rate.
2. If additional fund balance is utilized in the Sewer Utility's Budget, it will jeopardize the future stability of the sewer utility.
3. Seventy percent (70) of the Sewer Utility's Budget is outside of the control of the City of Newark.

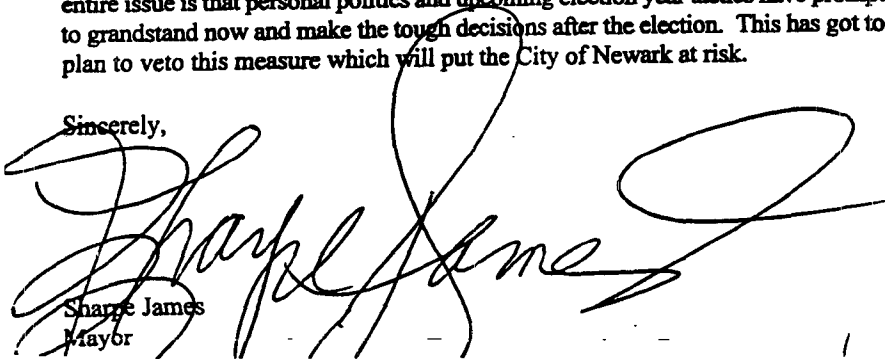

November 6, 1996

4. Sixty-eight percent (68%) of the Sewer Utility's Budget represents payments to Passaic Valley Sewerage Commission. This Commission has applied to the New Jersey Wastewater Trust Fund for \$265 million in capital financing. This would include an interest free loan of \$132 million and a bond issuance for \$132 million. The debt service of these projects alone could add \$5.4 million to Newark's Sewer Utility Budget by 1999.
5. If costs are transferred to the City's Operating Budget from the Sewer Utility's Budget, it will increase our 1996 tax rate.
6. It is required by State Statute and Bond Covenant that the Sewer Utility remain self-liquidating. The revenues of the Sewer Utility must support its expenditures including 110% of debt service. A rate reduction of this magnitude and at this time during the year puts considerable pressure on the ability of the Sewer Utility to remain self-liquidating. This difficulty would be compounded if additional Sewer Fund Balance is utilized to balance the 1996 Sewer Utility budget. If the Sewer Utility should not be self-liquidating at the end of 1996, all of its debt would become part of the City's for the purpose of debt limit computation. This would severely restrict the City's ability to issue debt for other capital needs. The bond covenant would require an immediate adjustment in the Sewer rates to make up any deficiency.

Throughout my tenure as Mayor, I have had to make many difficult, unpopular decisions for the good of the City. Certainly the easier path to take would be to just allow this rate reduction to take place. However, the Municipal Council's approval of an ordinance to reduce sewer rates is an unsound management practice. The reduction would come at the expense of the Sewer Utility's Fund Balance and the 1996 tax rate. It will jeopardize our long range infrastructure repair program and our ability to respond to any contingencies and emergencies. A sound, prudent management decision would be to avoid rate shock.

In light of these issues and in observing municipalities nationwide that are faced with similar kinds of budget challenges, I have decided to maintain my position and continue to support measures that lessen the impact of tax increases and spread inevitable costs equitably. Most disappointing in this entire issue is that personal politics and upcoming election year tactics have prompted my colleagues to grandstand now and make the tough decisions after the election. This has got to stop. I therefore plan to veto this measure which will put the City of Newark at risk.

Sincerely,

Sharpe James
Mayor

All such studies must be approved by the Director of Engineering and shall be subject to his periodic review.

6-S & F-i.

The City Clerk read **An Ordinance to amend Title Twenty-One, Chapter Five, Section Three, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented. (To adjust sewer user charges by establishing an amended rate schedule for Sewer Users).**

The City Clerk stated the question before the Council is "Shall the Municipal Council override the Mayor's veto of **"An Ordinance to amend Title Twenty-one, Chapter Five, Section Three of the revised ordinances of the City of Newark, New Jersey (1966) as amended and supplemented?"**

The City Clerk read the following veto message from Mayor Sharpe James:

SHARPE JAMES
MAYOR
NEWARK, NEW JERSEY
07102

August 8, 1996

Council President Donald Bradley
Newark Municipal Council
City Hall - Room 304
920 Broad Street
Newark, N.J. 07102

Dear Council President Bradley:

I must respectfully veto the decrease in the Sewer Rates Ordinance, *whereas it would result in a tax increase for the citizens of Newark. Moreover, it would paralyze the City to address any emergencies and represents an act of poor management and legislative indifference.*

November 18, 1996

As you are aware from my prior correspondence dated July 25, 1996 on the issue of the decrease in the sewer rates, I have some critical concerns that have remained unaddressed. Therefore, I will veto Ordinance 6PH, S & F-f. The following list summarizes my reasons for vetoing this Ordinance:

1. Tax exempt users will not pay this increase in taxes, but will benefit from the decrease in sewer rates. The full impact of any tax increase will fall completely on taxable properties. Therefore, an entity, such as Port Authority, will pay no additional taxes, but will receive a reduction in their sewer rate.
2. If additional fund balance is utilized in the Sewer Utility's Budget, it will jeopardize the future stability of the sewer utility.
3. Seventy percent (70) of the Sewer Utility's Budget is outside of the control of the City of Newark.
4. Sixty-eight percent (68%) of the Sewer Utility's Budget represents payments to Passaic Valley Sewerage Commission. This Commission has applied to the New Jersey Wastewater Trust Fund for \$265 million in capital financing. This would include an interest free loan of \$132 million and a bond issuance for \$132 million. The debt service of these projects alone could add \$5.4 million to Newark's Sewer Utility Budget by 1999.
5. If costs are transferred to the City's Operating Budget from the Sewer Utility's Budget, it will increase our 1996 tax rate.
6. It is required by State Statute and Bond Covenant that the Sewer Utility remain self-liquidating. The revenues of the Sewer Utility must support its expenditures including 110% of debt service. A rate reduction of this magnitude and at this time during the year puts considerable pressure on the ability of the Sewer Utility to remain self-liquidating. This difficulty would be compounded if additional Sewer Fund Balance is utilized to balance the 1996 Sewer Utility budget. If the Sewer Utility should not be self-liquidating at the end of 1996, all of its debt would become part of the City's for the purpose of debt limit computation. This would severely restrict the City's ability to issue debt for other capital needs. The bond covenant would require an immediate adjustment in the Sewer rates to make up any deficiency.

Throughout my tenure as Mayor, I have had to make many difficult, unpopular decisions for the good of the City. Certainly the easier path to take would be to just allow this rate reduction to take place. However, the Municipal Council's approval of an ordinance to reduce sewer rates is an unsound management practice. The reduction would come at the expense of the Sewer Utility's Fund Balance and the 1996 tax rate. It will jeopardize our long range infrastructure repair program and our ability to respond to any contingencies and emergencies. A sound, prudent management decision would be to avoid rate shock.

In light of these issues and in observing municipalities nationwide that are faced with similar kinds of budget challenges, I have decided to maintain my position and continue to support measures that lessen the impact of tax increases and spread inevitable costs equitably. Most disappointing in this entire issue is that personal politics and upcoming election year tactics have prompted my colleagues to grandstand now and make the tough decisions after the election. This has got to stop. I therefore plan to veto this measure which will put the City of Newark at risk.

Sincerely,

Sharpe James
Mayor

SJ/aer

**RE: MAYOR'S VETO OF COUNCIL ORDINANCE 6PHS&FO 120496
TO GIVE NEWARK JOBS TO NON-NEWARK RESIDENTS**

ATTENTION: ROBERT P. MARASCO, CITY CLERK

Dear Council President Bradley:

On July 1, 1994, we took an Oath of Office to serve the citizens of Newark who voted us into office. As Newark elected officials, all of our action should be in the best interest of Newark citizens. It is Newark citizens who vote for us, and as tax payers, who pay our salaries.

The Members of the Newark Municipal Council should also be aware of the fact that the citizens of Newark in 1976, by referendum, voted in a residency requirement for Newark employees.

I, therefore, unequivocally veto the proposed ordinance sponsored by the Honorable Council Members Rice, Crump, Chaneyfield and others, to give lucrative Newark jobs paying \$73,462.00, a \$60,000 range, a \$50,000 range, a \$40,000 range, a \$30,000 range and others to out of towners by granting then a waiver from having to live in Newark.

I am also mindful of the fact that several Newark Council Members have personal aides who do not live in the City of Newark.

Nevertheless, as Mayor for the City of Newark and out of respect for all Newark citizens, I will veto this ordinance in the best interest of Newark citizens and tax payers who should be given first priority in hiring for Newark jobs. Why should the citizens of Newark be called upon by Newark elected officials to pay the mortgages, rents, tuitions, car notes, insurance and bills for those who do not live in Newark and cannot vote for them?

If Newark is a nice place to "make a buck," then they should live in Newark as the current law demands. Where were the members of the Newark Municipal Council when over 3,000 Newark citizens lined up around City Hall in the rain in the "Newark Job Fair" line seeking employment? whereas this ordinance led by Council Members Rice, Crump and Chaneyfield would take job opportunities away from them and grant them to out of towners, it makes no sense. It's an insult to every Newark voter who placed their trust in their elected officials.

Moreover, the proposed residency waiver ordinance if passed, will place the city in the middle of costly personal liability suits by those who obeyed the law and did move back to Newark. They will sue for damages encompassing relocation expenses, broken lease penalties, new insurance payments and other related debts.

The city will also be exposed to legal suits from those who left because of our residency law and will now demand their jobs back, citing that they too fall under the Council's waiver. How about those who presently have fraudulent Newark addresses that we are investigating. If this ordinance is passed, they too will come out of hiding and claim immunity from having to live in Newark because of this ordinance.

Thus, the action of the Newark City Council places the city in harm's way. It's a no win situation for the citizens and city of Newark. This ordinance must be rejected.

Of course, we recognize the indisputable fact that the Mayor and Council by law of the State Supreme Court and statutory needs had to grant some waivers.

Yet, the Honorable Members of the "Newark Municipal Council cannot hide behind some very necessary waivers as an excuse" (two wrongs do not make a right) to give away all of Newark jobs to their staff, friends, financial supporters and campaign army. These \$73,462.00, \$60,000, \$50,000, \$40,000, \$30,000 and other jobs can be filled by competent Newark citizens.

We can improve the quality of life in Newark by granting jobs to Newark citizens, who in turn will spend much of their money in Newark, which in turn will stimulate the local economic viability of our city. A more employed community will reduce incidents of crime and drug abuse. A more employed community will generate a more positive image of Newark.

In summary, we should support those who live in our city. To take their vote and then pass legislation which is harmful to them and their community, is a clear act of hypocrisy. We should not be giving special treatment to those who live outside of Newark over Newark citizens.

I, therefore, stand behind my veto of this anti-Newark citizen waiver ordinance. A vote for Newark citizens who elected you will be to vote "no" to override my very necessary veto of this ordinance in safeguarding jobs for Newarkers and to spare the city from a costly liability suit over this irresponsible legislation of the Newark Municipal Council legislation.

I respect and love the citizens of Newark. I owe nothing to those who live outside the City of Newark. I am not being held hostage.

Please vote NO!

Respectfully yours,

Shape James
Mayor

MEMORANDUM

DATE: DECEMBER 9, 1996

TO: ROBERT P. MARASCO
CITY CLERK

FROM: MICHELLE HOLLAR-GREGORY
CORPORATION COUNSEL

RE: **ORDINANCE AMENDING ORDINANCE REGARDING
POLICE DIRECTOR/POWERS AND DUTIES
8G 110696 AND 6FN 111896**

Attached please find the above-referenced Ordinance which is being returned as I am unable to sign same as to form and legality on the basis of the facts set forth. I have reviewed the Ordinance regarding the proposed amendment to the Ordinance establishing the powers and duties of the Police Director. Initially, it is apparent from a reading of the proposed amendment that it is so vague as to render it unenforceable and, therefore, unconstitutional.

Furthermore, under N.J.S.A. 40A:11-118, the governing body may, by ordinance, establish a police force and must, once it has established the police force, designate the line of authority relating to the police function and for the adoption and promulgation by the "appropriate authority" of rules and regulations for the government of the force and "for the discipline of its members". It is clear from a reading of this statute that once the governing body (i.e. Municipal Council) establishes by ordinance a police force and provides for the line of authority by designating the individual who will be the "appropriate authority" (i.e. Police Director), it is the duty and responsibility of the "appropriate authority" to establish rules and regulations relating to the "government" of the police force and the discipline of its members.

Only when the municipal ordinance identifies the appropriate authority can valid rules and regulations be adopted and promulgated by the **appropriate authority**. Therefore, it is not within the authority of the Municipal Council by Ordinance to promulgate rules relating to the discipline of police officers. The ability to do that has been preempted by the statute cited above.

This shall serve as a follow-up to my conversation with Councilman Rice who sponsored this Ordinance and as a formal opinion of this office. I remain available to discuss this matter. By copy of this memo, I am directing JoAnne Watson, of my office, to discuss any proposed changes or revisions that Councilman Rice may want to discuss.

Newark Municipal Council
City Hall - Room 304
920 Broad Street
Newark, NJ 07102

Dear Council President Bradley:

After reviewing the Municipal Council's Resolution to decrease Water Rates by 5.6% and Sewer Rates by 6.3%, I strongly urge the Municipal Council to consider not adopting the ordinance because of its negative impact on the citizens of Newark.

The establishment of water and sewer rates recommended in my Proposed 1996 Budget were designed in conformity with the recommendations contained in the Rate Study prepared by Samuel Klein & Co. and David M. Griffith in accordance with the attached resolution (7RCBR(AS)050692) and contract (Exhibit 1).

As you are aware, Water rates were held at \$15.13 per thousand (1,000) cubic feet for the years 1991 thru 1993. In 1994, the water rate was decreased to \$14.37 which still remains in effect today. We were able to maintain these rates in spite of a modest increase of 5% by North Jersey District Water Supply Commission. It is important to note that the City of Newark has the lowest water rate in Essex County (Exhibit 2) as can be seen in the attached chart. After reviewing this document, I'm sure you will agree that the Administration has taken a pro-active business approach to the utilization of fund balance which is in the best interest of our citizens.

The Sewer Rate was \$13.51 per 1,000 cubic feet in 1991; however, due to a \$10 Million increase to the City of Newark by Passaic Valley Sewerage Commission in 1992, the rate took a drastic increase to \$16.89 per 1,000 cubic feet. During the following year, P.V.S.C. slightly reduced their charges to the City of Newark. Our citizens benefited from this reduction through a rate reduction to \$15.15. In 1994, there was a further sewer rate reduction to \$14.40 which is still in effect.

Prior to August 1994, Water was the only existing Utility. In August 1994, the Sewer Utility was created; until that time, all sewer collections were a part of the City's General Fund. Therefore, when the Sewer Utility was created, there was zero fund balance. By the end of 1995, we planned and accumulated a \$576,000.00 unrestricted fund balance. Although sewer revenue fell short of budgeted anticipations; self-liquidation status was achieved through cancellation of unspent appropriations which resulted in a \$1.3 Million excess in operations. Also attached is a Summary of Fund Balance for the Sewer Utility since its inception (Exhibit 3).

There are several critical factors which should be considered prior to mandating total utilization of all fund balance for both the Water and Sewer Utilities, transferring costs to the Current Fund, and/or reducing revenues to the Current Fund to decrease the rates:

1. It is required that the Water and Sewer Utilities be self-liquidating. In other words, their revenues must support their expenditures including 110% of debt service. The usage of all the Fund Balance puts considerable pressure on the ability of these utilities to remain self-liquidating and in fact leaves no room for any shortfalls. If either utility fails to be self-liquidating, the outstanding debt of that utility becomes part of the debt of the City for purposes of computing the City's debt limit. Therefore, it may jeopardize the City's ability to fund necessary capital projects. If the total outstanding debt of the utilities were to become a part of the net debt of the City, we would be above our debt limit by \$28.5 million. In addition, if the Utilities fail to remain self-liquidating, it is a violation of bond covenant and according to the covenant the City must immediately adjust its rates to make up the deficiency.
2. In terms of potential future costs, Passaic Valley Sewerage Commission has applied to the New Jersey Wastewater Trust Fund for \$265 million in capital financing. This includes an interest free loan of \$132 million and bond issuance for the other half. Attached please find projected amortization schedules (Exhibit 4) for the repayment of these funds. As can be seen from these schedules, a financing of this magnitude by P.V.S.C. would add \$5.4 million to Newark's share by 1999. Any of the alleged savings by the new sledge management plans would be totally obliterated by these additional costs. There is currently ongoing litigation surrounding the contract (Exhibit 5) for the new sludge management plan of P.V.S.C. and the impact upon the City, if any, is unknown at this time. The additional debt service costs for P.V.S.C. must be considered in conjunction with the outstanding debt of the Sewer Utility and those related debt service costs. We have attached another schedule (Exhibit 6) which illustrates the existing amortization schedules for the Sewer Utility. The last schedule combines the City of Newark's Sewer Utility future debt service costs with those of the projected P.V.S.C. debt service costs. These costs alone will exert considerable pressure on the sewer rate in the immediate future.
3. The Passaic Valley sewerage charges to the City are charged quarterly up front and due the first week of February. The City is penalized at a rate of 18% if the payment is one day late. In early February, the total quarterly amount due to P.V.S.C. has not yet been billed and collected from the customers. In addition, we must pay P.V.S.C. its entire amount due whether or not we have collected same from our customers. This required practice causes cash flow problems within the sewer utility and reduces investment income.
4. Tax exempt users will not pay any increase in taxes related to movement of costs to the Current budget from the Water and Sewer budgets or the reduced revenue to the Current Budget from the Water and Sewer budgets. The full effect of any related tax increase will

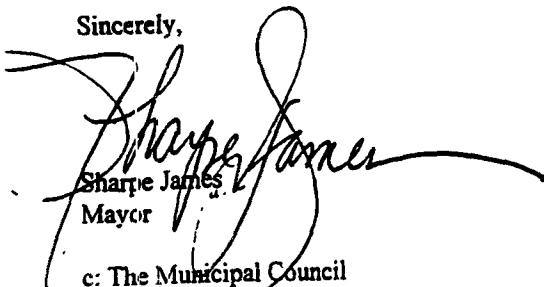

December 18, 1996

fall completely on taxable properties with tax exempt properties recovering full benefit of decrease in water and/or sewer rates. Approximately 1/3 of the total assessment would be paying 100% of the tax increase. Consequently, the increase in the taxes may be far greater than the decreases in the water and sewer bills for taxable property owners.

5. **Current rates were stabilized through the use of Fund Balance.** If there was no Fund Balance available for the 1995 Budget, the water rate would be \$14.96 instead of \$14.37 and the Sewer Rate would be \$14.63 instead of \$14.40. This would have meant increases of 4% and 2% respectively in these rates for 1995. Without Fund Balance in the 1996 projections, the Water Rate would be 15.78, a 10% increase, and the Sewer Rate would be 15.41, a 7% increase over 1994. These figures illustrate the importance of maintaining a stable Fund Balance.
6. **The utilization of water and sewer fund balance for the years 1991 through 1995 has been consistent with sound and prudent business practice.** It is preferable to retain a small percentage of Fund Balance to guard against unexpected financial setbacks and to utilize Fund Balance in a rational matter. For your review, please find attached a summary of the Fund Balance (Exhibit 7) and it's utilization for the years 1992 through 1995. This chart illustrates that relatively high amounts of Water Fund Balance were appropriated over the last several years for non-reoccurring purposes - the settlement of legal cases and the purchase of new meters. The use of Fund Balance for operating purpose must be carefully monitored to insure that the Fund Balance can be regenerated to prevent any unusual spikes in the rates.
7. **The current rate projections do not take into account the eventual solution to remedying the combined sewer problem.** The costs to solve that problem are astronomical and must be addressed in the very near future. A study is currently being conducted to determine and plan for these costs.

I'm sure it is not the objective of the Municipal Council to create an additional burden on our citizens. However, the passage of this Ordinance will have a detrimental financial impact on them and particularly those seniors who are on fixed income. The impending Ordinance will also seriously hamper the operation of the Water and Sewer Utilities and have damaging effects on the City. I respectfully request that the Municipal Council deny passage of this proposed Ordinance.

Sincerely,

Sharpe James
Mayor

The City Clerk: The following ordinance was adopted on first reading, advertised in accordance with law and a hearing date set. It is now before you for public hearing, second reading and final passage.

Ordinance to amend Title Seventeen, Offenses, Miscellaneous, Chapter 2, Disorderly Conduct, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, by Prohibiting Aggressive Solicitation.

NOW, THEREFORE BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, THAT:

SECTION 1 - LEGISLATIVE FINDING. The council recognizes a constitutional right to beg or solicit in a peaceful and non-threatening manner. The council finds, however, that an increase in aggressive solicitation throughout the city has become extremely disturbing and disruptive to residents and businesses, and has contributed not only to the loss of access to and enjoyment of public places, but also to an enhanced sense of fear, intimidation and disorder.

Aggressive panhandling usually includes approaching or following pedestrians, the use of abusive language, unwanted physical contact, or the intentional blocking of pedestrian and vehicular traffic. The council further finds that the presence of individuals who solicit money from persons at or near banks or automated teller machines is especially troublesome. Motorists also find themselves confronted by persons who, without permission, wash their automobile windows at traffic intersections, despite explicit indications by drivers not to do so. Such activity often carries with it an implicit threat to both persons and property.

The law is timely and appropriate because current laws and city regulations are insufficient to address the aforementioned problems. The restrictions contained herein are neither over broad nor vague and are narrowly tailored to serve a substantial governmental interest.

This law is not intended to limit any persons from exercising their constitutional right to solicit funds, picket, protest or engage in other constitutionally protected activity. Its goal is instead to protect citizens from the fear and intimidation accompanying certain kinds of solicitation that have become an unwelcome and overwhelming presence in the city.

December 18, 1996

SECTION 2. The Revised Ordinance of the City of Newark is amended by adding a new Section to Title Seventeen to read as follows:

Prohibition against certain forms of aggressive solicitation. Definitions for purposes of this section:

b. Intentionally touching or causing physical contact with another persons, or an occupied vehicle without that person's consent in the course of soliciting, asking or begging;

December 18, 1996

Provided further that no person shall solicit, ask or beg within an automated teller machine facility where a reasonable person would or should know that he or she does not have the permission to do so from the owner or other person lawfully in possession of such facility. Nothing in this paragraph shall be construed to prohibit the lawful vending of goods and services within such areas.

3. No person shall approach an operator or other occupant of a motor vehicle while such vehicle is located on any street for the purpose of either performing or offering to perform a service in connection with such vehicle or otherwise soliciting the sale of goods or services, if such approaching, performing, offering or soliciting is done in an aggressive manner as defined in paragraph one of subdivision of this section. Provided, however, that this paragraph shall not apply to services rendered in connection with the lawful towing of such vehicle or in connection with emergency repairs requested by the operator or other occupant of such vehicle.

b. Exemptions.
